UMCDF Operations

- Safety is number one at UMCDF: employees have worked 390 days since the last lost-workday accident (Oct. 22, 2004).
- Four GB-ton containers were punched and drained of agent, Nov. 14. The agent was destroyed Nov. 16 in the Liquid Incinerator. The containers will be decontaminated in the Metal Parts Furnace at a later date. (Note: these containers are separate from the Depot's stockpiled weapons; therefore, not included in the above table.)
- Rocket processing resumed Nov. 17 at the 75-percent feed rate.

Depot firefighters recently trained for the Defense Department's Firefighter Physical Fitness Challenge, a mandatory test beginning Jan. 1.
