UMCDF Operations

- Safety is number one at UMCDF. Employees have worked 607 days since the last lost-workday accident (Oct. 22, 2004).
- GB rocket processing surpassed 75,000 on Tuesday, June 20. Destruction of those rockets plus other munitions means that public risk from the Umatilla stockpile has now been reduced 80 percent.
- Another minor rocket fire occurred at about 5:30 a.m. June 20 and was safely contained. Rocket processing resumed later that afternoon.

Oregon Department of Environmental Quality (DEQ) Chemical Demilitarization Program Administrator Joni Hammond (left) toured the depot June 20. Along with stops at UMCDF and depot waste storage areas, Hammond and Depot Commander Lt. Col. Donna Rutten visited the disposal facility's Demilitarization Protective Ensemble (DPE) Support Area (DSA). DSA Manager Trish Casey (right) explained how the suits are used to protect workers who make entries into agent-contaminated areas.
