

## Site's employee-led safety team updates CAC on activities

Oregon's Chemical Demilitarization Citizens Advisory Commission (CAC) learned about the Safety Management and Recognition Team (SMART) at its monthly meeting last Thursday. Scott Davis (right), SMART team lead for A shift, and Leslie Johnson, SMART chairperson, explained how SMART works to promote safety and good health throughout the Umatilla Chemical Agent Disposal Facility (UMCDF). The commissioners complimented Davis and Johnson on the program and its positive impact at UMCDF. Representatives of the Environmental Process Improvement Team (EPIT) and the Toxic Area Safety and Compliance Team (TASC) are scheduled to make presentations at the next two CAC meetings.

## UMCDF's environmental culture receives kudos

During last Thursday's Environmental Quality Commission meeting, DEQ' Chemical Demilitarization Program Administrator Rich Duval reported that an environmental inspection conducted at the UMCDF during the week resulted in no findings. "It was perfect," he said.

Stephanie Johansen, hazardous waste management supervisor, added, "It was the best inspection we've had in a while."

Congratulations to everyone for keeping environmental compliance as a top priority at UMCDF.

## UMCDF Highlights

- It has been 292 days since a lost-time accident occurred at the UMCDF (July 7, 2006).
- GB 155mm projectile processing reached the 50 percent milestone on April 25.

### Umatilla Chemical Agent Disposal Facility Processing

(April 19 - 25, 2007)

Total number GB-filled 155mm projectiles processed this period	2,092
Total number GB-filled 155mm projectiles processed to date	23,837
Percentage of total GB projectiles processed to date	61.8
Total munitions destroyed to date since start of operations (Sept. 8, 2004)	131,970
Total pounds of GB chemical agent destroyed this period	17,036
Nominal tons of GB chemical agent destroyed to date	937.41
Percentage of total agent tons destroyed	25.22

### UMCD/UMCDF Milestones

- Feb. 1, 2007: Processed the first GB 155mm projectiles through the Metal Parts Furnace (MPF).
- Jan. 25, 2007: Began the GB 155mm projectile campaign with delivery of munitions from depot storage to the disposal facility.
- Jan. 3, 2007: Completed the GB 8-inch projectile campaign.
- Nov. 6, 2006: Processed the 100,000th munition stockpiled at Umatilla.
- Sept. 28, 2006: Began GB M426 8-inch projectile campaign.
- Aug. 9, 2006: Completed GB M55 rocket campaign.
