While continuing with safe mustard agent ton container disposal operations PBCDF concluded the mustard Agent Trial Burns (ATB) on Wednesday, March 4. PBCDF is currently restricted to operating at or below 50 percent of the maximum feed rates as stipulated in the Resource Conservation and Recovery Act permit until the Arkansas Department of Environmental Quality receives and approves the ATB Data Report. At that time, the feed rates for the furnaces will increase to 75 percent.

PBCDF employees have currently worked more than 1.5 million consecutive hours without a lost work day.
