PBCDF paused disposal operations this week for a planned and estimated two-week outage to perform preventative maintenance activities on the Metal Parts Furnace (MPF), the MPF Afterburner (AFB) and the Liquid Incinerator (LIC). The current processing rate allowed by the Arkansas Department of Environmental Quality is at 75 percent of the permitted maximum value for both the LIC and MPF. The site is continuing closure activities at the former BZ disposal building in preparation for its demolition.
