

### First visible demolition at disposal facility to begin on Monday

The first visible exterior demolition of equipment at the Umatilla Chemical Agent Disposal Facility (UMCDF) is scheduled to begin on Monday, Oct. 3. Demolition of the Brine Reduction

Area (BRA) Pollution Abatement System (PAS) will begin with preliminary barricading and sub-contractor staging around the area. The demolition work, to be conducted by Brandenburg Industrial Service of Chicago with support from the UMCDF maintenance department, is expected to last through October.

### Control Room operator presides over 400th entry

UMCDF Control Room (CON) Operator Steve Dinsdale reached a monumental landmark on Wednesday, Sept. 21, during a Demilitarization Protective Ensemble (DPE) entry into the Buffer Storage Area (BSA). The entry, conducted for troubleshooting and repair of a lifting device, was the 400th that Dinsdale had conducted as the CON Operator. His record began on Nov. 18, 2004, when he presided over an entry to change out the shear blade and die on a Rocket Shear Machine. Dinsdale's milestone event was celebrated with congratulatory cake.

### UMCDF Highlights

- It has been 1,909 days, or more than 9 million work hours, since a lost work day accident occurred at the UMCDF (July 7, 2006).

### Umatilla Chemical Agent Disposal Facility Processing

(Sept. 22 - 28, 2011)

Total number of originally stockpiled HD-filled ton containers destroyed this period	42
Total number of originally stockpiled HD-filled ton containers destroyed to date	2,458
Percentage of originally stockpiled HD-filled ton containers destroyed to date	93.3
Total "recipient" HD ton containers* destroyed this period	12
Total "recipient" HD ton containers* destroyed to date	847
Pounds of HD agent destroyed this period	75,613
Pounds of HD agent destroyed to date	4,398,494
Pounds of total agent destroyed to date <i>Includes GB, VX and HD</i>	7,779,159
Total munitions destroyed to date since start of operations (Sept. 7, 2004) <i>including non-stockpile GB and VX ton containers</i>	220,411
Nominal tons of chemical agent destroyed to date	3,577.11
Percentage of total agent tons destroyed	96.23

\*Recipient ton containers are byproducts of mustard disposal and were not a part of the original stockpile.

### UMCD/UMCDF Milestones

- June 27, 2010:** Completed mustard Agent Trial Burn for Metal Parts Furnace (MPF) and Liquid Incinerators (LICs).
- June 11, 2009:** Began first HD ton container destruction in the MPF.
- June 4, 2009:** First HD ton containers transported from depot storage to disposal plant.
- Nov. 5, 2008:** Completed VX munitions campaign.
- Oct. 26, 2007:** Began VX munitions campaign.
- July 8, 2007:** Completed GB munitions campaign.
- Sept. 7, 2004:** Began GB munitions campaign.
